

## PRESS RELEASE

# Deepak Phenolics Limited Launches State-of-the-Art Mobile Mammography Van to Combat Breast Cancer

- The Mobile Mammography Unit (MMU) is equipped with advanced diagnostic technology.
- Focused on delivering critical breast cancer screening services across urban, rural, and tribal areas of Gujarat in partnership with Deepak Foundation
- Aims to save lives through early detection: Targeting women aged 40+ to reduce breast cancer mortality rates by 25%.

**Bharuch, Wednesday:** Deepak Phenolics Limited (DPL), a wholly owned subsidiary of Deepak Nitrite Limited, has unveiled a transformative initiative with the launch of a Mobile Mammography Van (MMV) designed to detect breast cancer at its early stages. Aligned with the company's philosophy of 'Deepak Cares,' the MMV aims to address the critical need for early detection and awareness, particularly in underserved regions of Gujarat.

The MMV was officially flagged off in Bharuch by **Shri Kunvarji Halpati**, Honourable Minister of State, Department of Tribal Development, Labour & Employment, Rural Development, Government of Gujarat, alongside **Shri Mansukh Vasava**, Member of Parliament, Bharuch, **Shri Ramesh Mistry** – Member of Legislative Assembly, Bharuch, **Shri Arunsinh Rana**, Member of Legislative Assembly, Vagra, **Shri D K Swami**, Member of Legislative Assembly, Jambusar and other esteemed dignitaries. This momentous event also saw the presence of community leaders, local authorities, and employees of the Deepak Group, underscoring collective commitment to this life-saving cause.

### Addressing a Pressing Health Challenge

According to the World Health Organization (WHO), breast cancer is one of the most prevalent cancers among Indian women, accounting for a significant 15-17% of all cancer cases in Gujarat. With approximately 9,000 new cases emerging annually in India, the need for early detection and timely intervention cannot be overstated.

The MMV is equipped with cutting-edge mammography technology and will serve as a mobile diagnostic unit to reach areas with limited medical access. Initially, the van will cover Bharuch, Narmada, and Vadodara districts, extending its services to reach other parts of Gujarat in through health camps. By focusing on women aged 40 and above, the initiative seeks to empower individuals with timely diagnostic tools, ultimately reducing mortality rates by an estimated 25%.

### **Deepak Group's Holistic Healthcare Commitment**

The Mobile Mammography Van is the latest addition to Deepak Group's comprehensive suite of community-focused healthcare initiatives. From the 'Nidaan' Van, which is dedicated to Tuberculosis detection, to the 'Swasth Sakhi' Van, providing essential gynaecological and paediatric care, and the NABL-Certified Diagnostic Lab, serving over 5,000 beneficiaries annually with high-quality diagnostics, each program underscores the organization's resolve to improve access to healthcare and uplift lives across diverse communities.

Guided by our collaborative vision of 'Depend on Deepak' and our unwavering commitment to Responsible Chemistry, the organisation strives to give back to society, foster sustainable progress, and be a steadfast partner in the nation's growth.
